

# CEMETERY

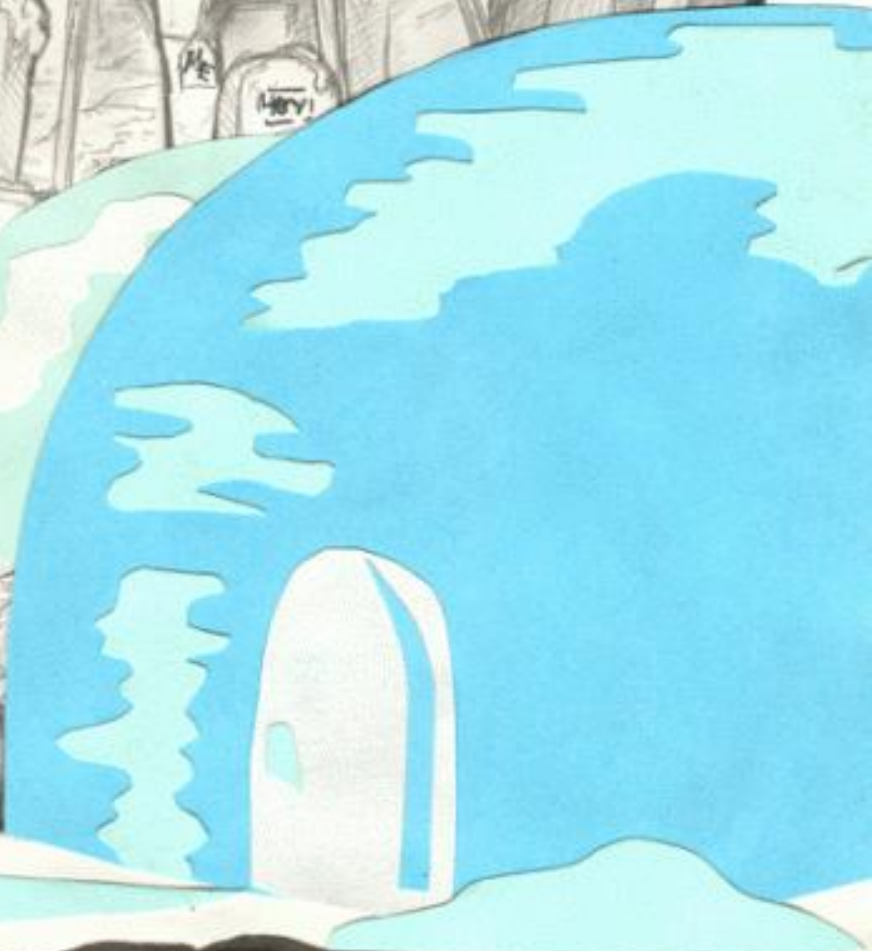

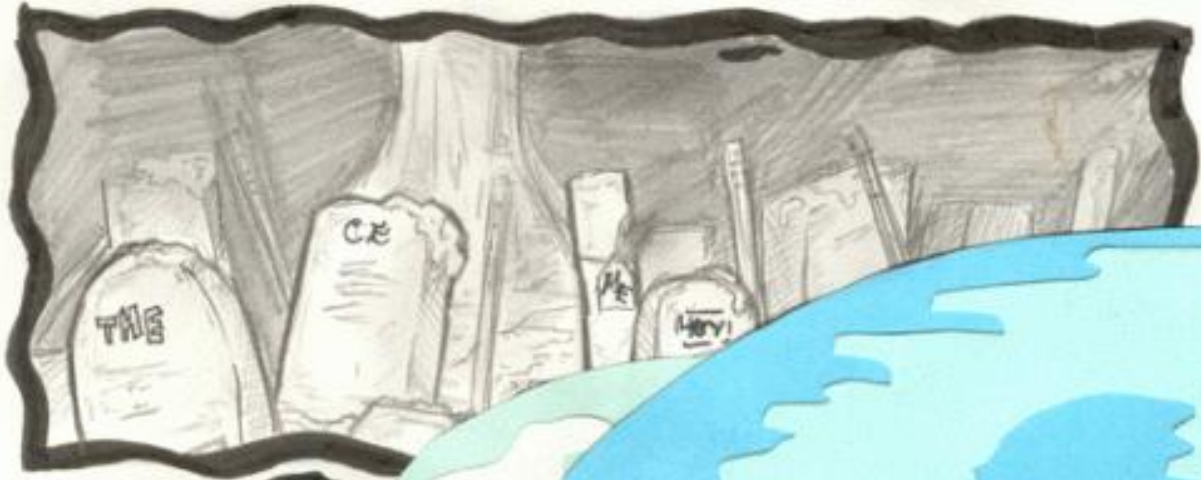

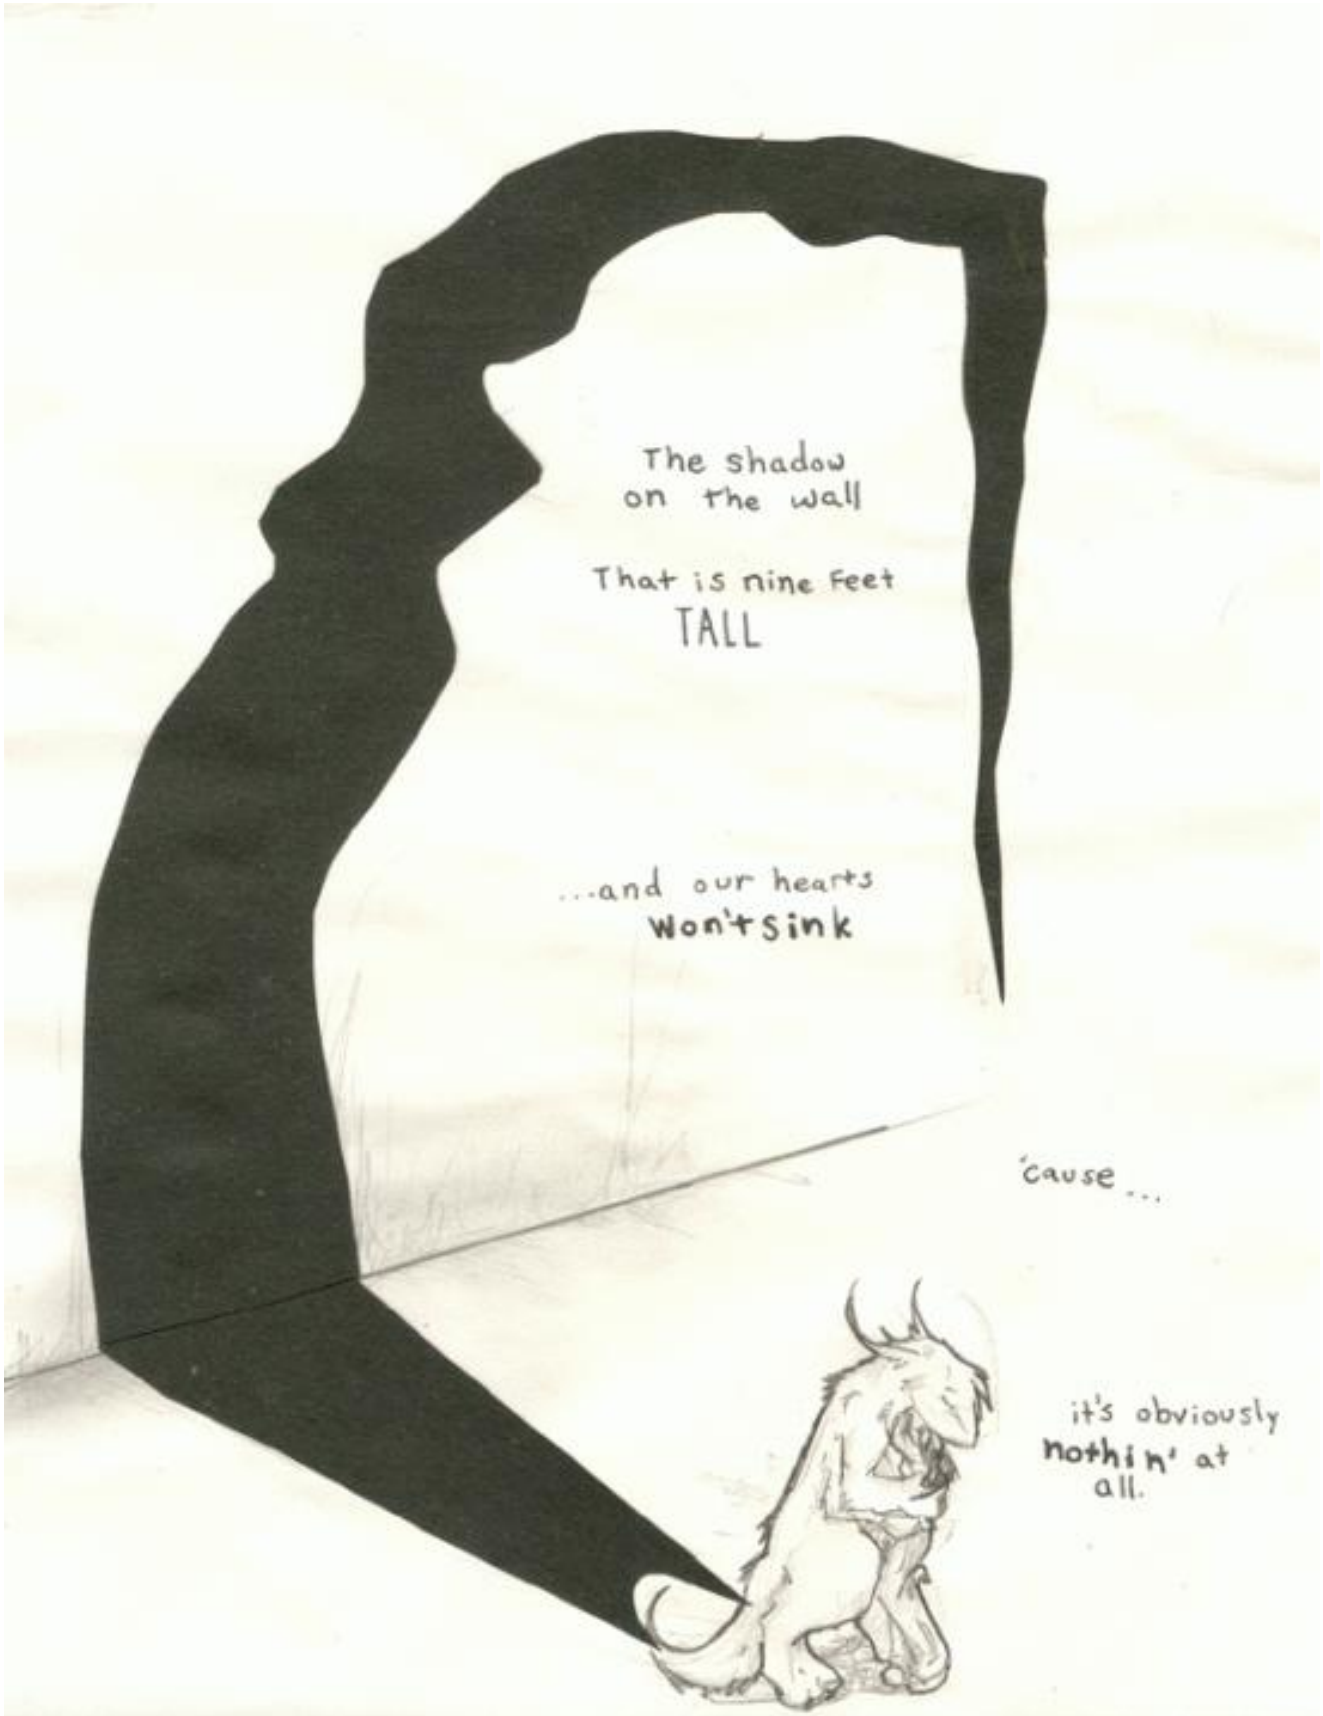

Let's get older.

remember the  
Factory Window?

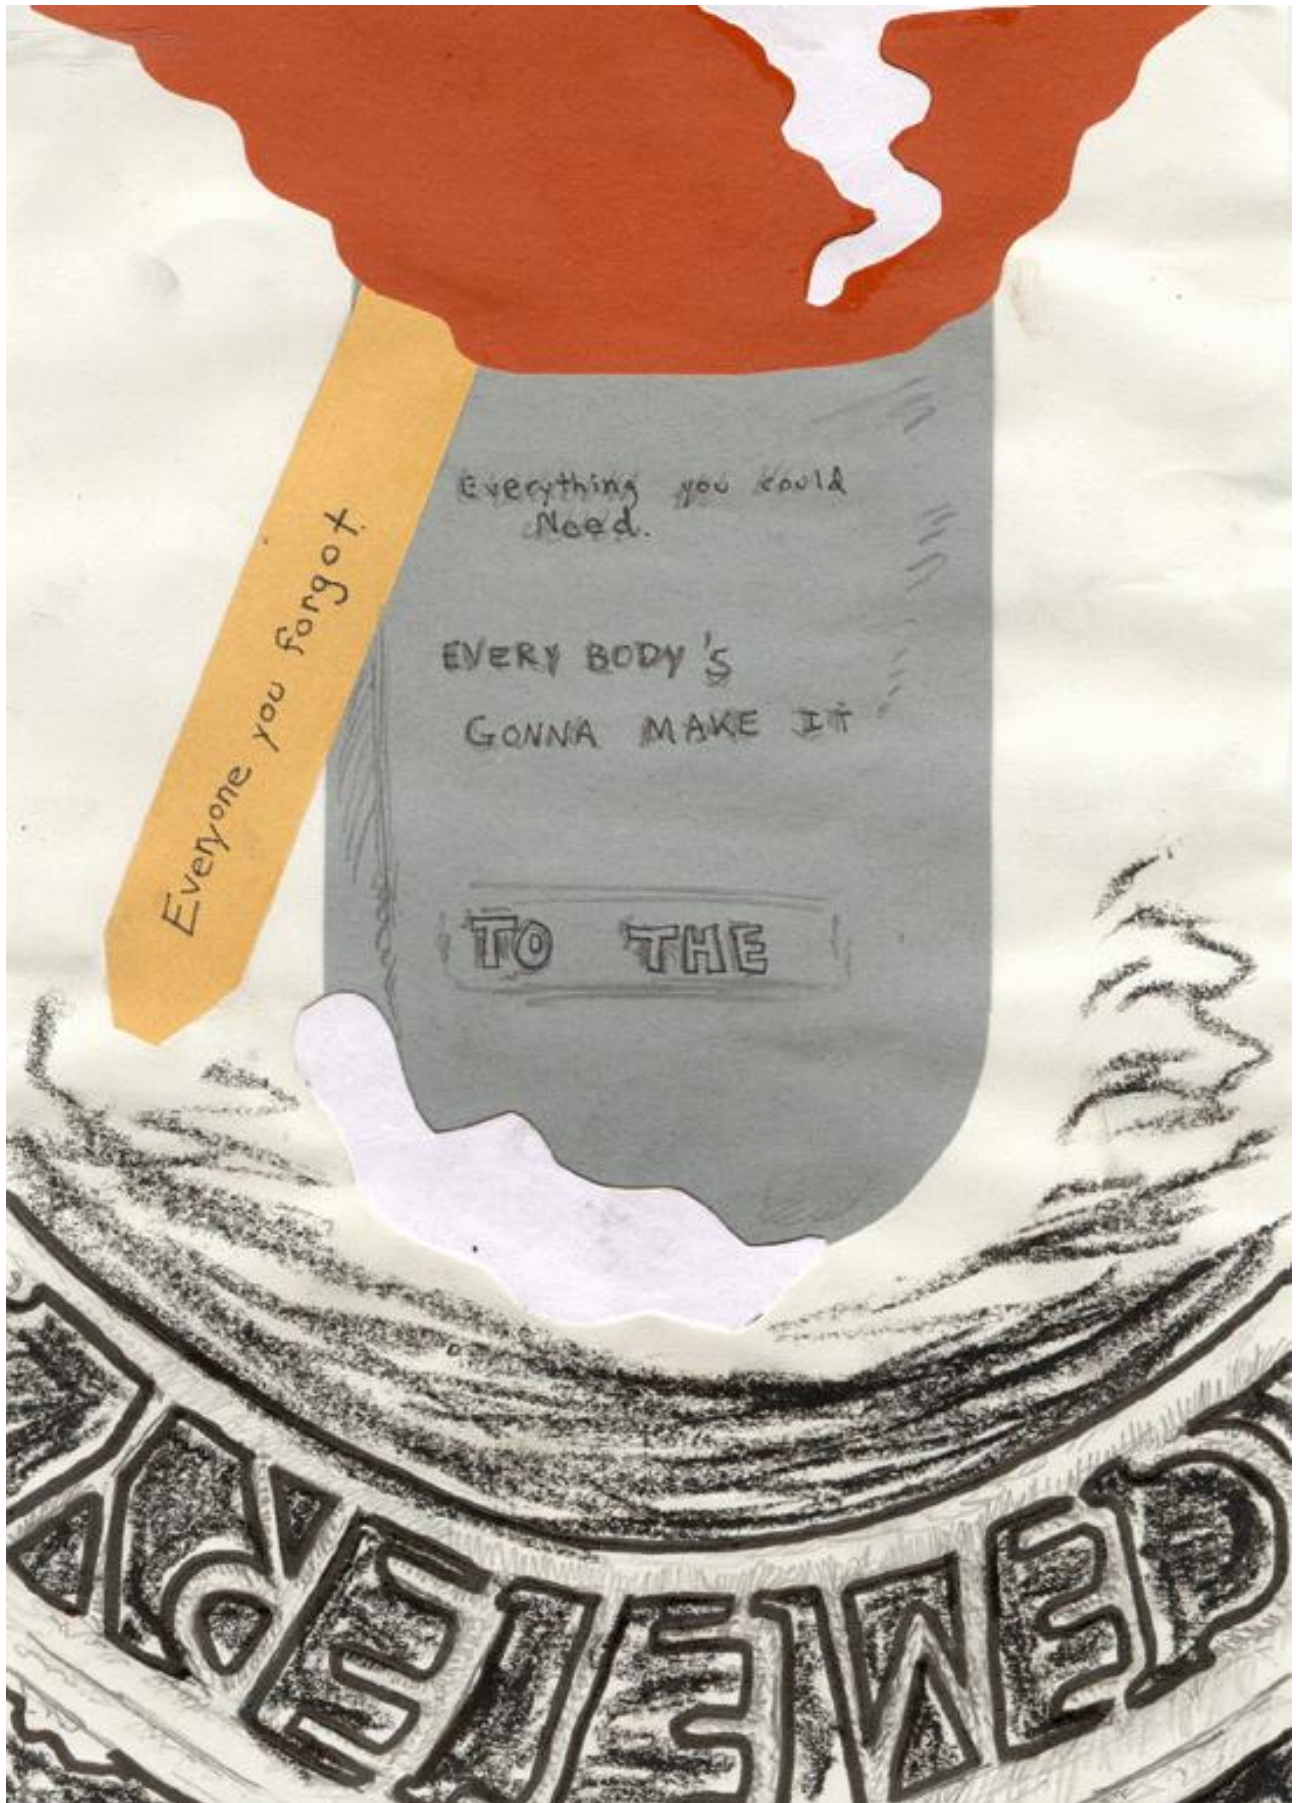

remember LIGHTNING  
in the light  
& LoWP?

Remember the house we used to live in?

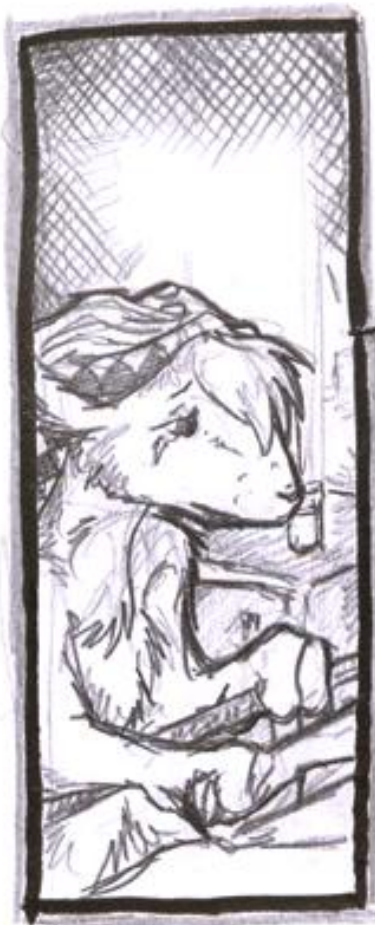

THE SHADOW ON THE WALL

THAT IS NINE FEET TALL

And our hearts won't sink.

Cause it's obviously nothin' at all.

And in a round about way  
we can disappear towards the coast  
cause the most I have to say

isn't that revealing  
at all...
